

## PRESS RELEASE

06 February 2024

### CHT presents sustainable textile innovations at PERFORMANCE DAYS Functional Fabric Fair in Munich

CHT, a global leader and manufacturer of textile chemistry and dyes, is excited to announce its participation in this year's **PERFORMANCE DAYS Functional Fabric Fair in Munich** being held **March 20-21, 2024**. During the fair, CHT will be showcasing its latest sustainable textile technologies, emphasizing both dyeing and effect chemicals designed to enhance the performance of textiles.

As PERFORMANCE DAYS Functional Fabric Fair has always emphasized innovation and sustainability, CHT will present products that not only enable the creation of textiles with advanced features such as water repellency, breathability, and efficient moisture transport but also contribute to significant water and energy savings during the dyeing and finishing processes, resulting in a reduced carbon footprint.

CHT, however, not only showcases these effect chemicals, but also its dyeing products which play a crucial role in achieving vibrant and eco-friendly colorations in textiles.

CHT, as a foundation-owned company, is committed to a comprehensive sustainability agenda. Our products are developed and manufactured under stringent standards, emphasizing the use of bio-based, biodegradable, and recycled materials to support circular business practices.

Visit our **booth B09** to explore how CHT's sustainable solutions are shaping the future of both dyeing and effect chemistry in performance textiles. Our
